

# **SUBJECT INDEX FOR VOLUME 26**

## **CRITICAL REVIEWS™ IN PHYSICAL AND REHABILITATION MEDICINE**

### **Page Range of Issues**

**Issues 1-2: 1-143, Issues 3-4: 145-292**

- adults, 255
- affect recognition, 87
- ankle, 203
- arm, 113
- balance, 145
- body weight-supported treadmill training, 255
- cardiovascular disorders, 181
- central sensitization, 51
- cerebral palsy, 165
- cerebrovascular accident, 113, 131
- chronic pain, 51
- corticosteroid, 13
- distal radius fracture, 145
- emotion perception, 87
- epidemiology, 99
- exercise equipment, 193
- falling, 275
- fall-related injury, 145
- foot model, 275
- footwear, 203
- fracture classification, 99
- fragility fractures, 145
- F-scan, 193
- function, 131
- gait, 275
- hand, 113
- hip, 203
- hyperalgesia, 51
- International Mission on Prognosis and Analysis of Clinical Trials in Traumatic Brain Injury, 13
- joint loading, 203
- knee, 203
- lokomat, mechanical gait trainers, 255
- Maori, 27
- Milwaukee, 275
- motor skills, 165
- multisegmental foot model, 275
- music therapy, 165
- neural plasticity, 51
- neurogenesis, 1
- neuroplastic changes, 131
- neuroprotection, 1
- New Zealand, 27
- osteoarthritis, 203
- outcome measure, 13
- pain, 181
- pedobarography, 193
- physical activity, 145
- piano with musical instrument digital interface, 165
- plasticity, 1
- prediction of outcome, 13
- pressure ulcers, 181
- prognosis, 13
- psychological conditions, 181
- quality of life after brain injury, 13
- randomization after significant head injury, 13
- rehabilitation, 27, 99, 113, 131
- respiratory dysfunction, 181
- self-directed, 27
- severe traumatic brain injury, 13
- shoes, 203
- spinal cord injury, 99, 181
- spinal instabilities, 99
- stationary bicycle, 193
- stress, 1
- stroke, 27, 255
- synaptogenesis, 1
- system, 99
- traumatic brain injury, 87
- triaxial accelerometer, 275
- urinary tract infections, 181
- weight-bearing, 193
