

MULTIPHASE SCIENCE AND TECHNOLOGY
CONTENTS, VOLUME 26, 2014

Page Range of Issues

Issue 1: 1-81; Issue 2: 83-170; Issue 3: 171-260; Issue 4: 261-349

Number 1

Experimental Data on Phase Distribution in the Upward High Pressure Steam-Water Flow in a Vertical Tube under Annular-Dispersed Regime. Part 1. Profiles of Phase Mass Fluxes and Velocities <i>P.L. Kirillov, Yu.Yu. Shtain, R.V. Shumsky, & Yu.D. Levchenko</i>	1
Fin Condensation in Variable Gravity Environment <i>A. Glushchuk, C. Minetti, & C. Buffone</i>	63

Number 2

Experimental Data on Phase Distribution in the Upward High Pressure Steam-Water Flow in a Vertical Tube under Annular-Dispersed Regime. Part 2. Structural and Local Hydrodynamic Characteristics of Flow <i>P.L. Kirillov, Yu.Yu. Shtain, R.V. Shumsky, & Yu.D. Levchenko</i>	83
Saturation and Subcooled CHF Correlations for PF-5060 Dielectric Liquid on Inclined Rough Copper Surfaces <i>M.S. El-Genk & A. Suszko</i>	139

Number 3

A Review of Liquid-Liquid Flow Patterns in Horizontal and Slightly Inclined Pipes <i>R. Ibarra, C.N. Markides, & O.K. Matar</i>	171
Modeling Solid-Liquid Homogeneous Turbulent Flow of Neutrally Buoyant Particles using the Mixture Model: A Study of Length Scales and Closure Coefficients <i>R. Silva, F.A.P. Garcia, P. Faia, & M.G. Rasteiro</i>	199
Gas-Phase Probability Distribution in Liquid Cross-Flow <i>M.A. Balzán & B.A. Fleck</i>	229

Number 4

Void Fraction and Wake Analysis of a Gas-Liquid Two-Phase Cross-Flow <i>P. Hanafizadeh, M. Momenifar, A.N. Geimassi, & S. Ghanbarzadeh</i>	261
Effect of Thermal-Hydraulic Parameters on Entropy Generation in a Boiling Channel <i>S. Talebi</i>	287
Best-Estimate Simulations of Condensation-Induced Water Hammer in Horizontal Pipes with the System Analysis Code ATHLET <i>C.S. Ceuca, H. Austregesilo, & R. Macián-Juan</i>	305
Pneumatic Conveying through a Horizontal Pipe: Numerical Pressure Drop <i>B. Patro</i>	329
