

TELECOMMUNICATIONS AND RADIO ENGINEERING

Volume 62, 2004

A

Abramov, P. B. – 851
Agafonov, R. E. – 1057
Agranovskii, A. V. – 485, 1057
Anosov, R. S. – 283
Arkipov, N. S. – 737
Arutyunyan, R. E. – 861
Atakishchev, O. I. – 9, 313, 403, 421,
449, 497, 509, 937
Avdeev, V. B. – 895, 971
Avdeeva, D. V. – 971

B

Bagaev, A. S. – 903
Bakumov, V. V. – 591
Bednarskii, V. V. – 683
Belov, M. V. – 9, 449
Belyaev, V. V. – 895
Berdyshev, A. V. – 971
Berezin, V. V. – 707
Bolychevtseva, L. A. – 673
Borisoglebskaya, L. N. – 99, 397
Burkovskii, V. L. – 961
Byvshe, M. E. – 623

C

Chabdarov, Sh. M. – 521
Chaplygin, A. A. – 355, 649
Chaplygin, I. A. – 737

D

Damm, V. A. – 1087
Diyazitdinova, A. R. – 831
Dobvnya, V. G. – 683, 769
Dovgal, V. M. – 237, 745, 995, 1021
Dreizin, V. E. – 699
Drozdov, I. A. – 515
Druzhinin, A. N. – 599
Dubrovin, A. D. – 183
Dubrovin, A. S. – 81, 633
Dudko, V. A. – 1079
Dudorov, R. V. – 947
Dyatlov, A. P. – 879
Dyatlov, P. A. – 879

E

Egorov, A. E. – 521
Egorov, S. I. – 437
Elagin, V. V. – 745
Emelianov, S. G. – 9, 421
Eremenko, V. T. – 613
Ershov, A. L. – 1087
Evstafiev, A. F. – 121

F

Fajzullin, R. R. – 521
Fedorchuk, D. V. – 555
Filatov, I. N. – 193
Filatov, K. V. – 931

G

Garmatyuk, S. S. – 577
Gerasimenko, V. G. – 903
Glukharev, I. N. – 437
Golovkov, A. A. – 291, 355, 555,
649, 977
Gordienko, V. V. – 745, 995
Grebenev, S. V. – 515

I

Ibragimov, B. G. – 175
Ilyukhin, A. A. – 691

K

Kabaev, D. V. – 49
Kagramanzade, A. G. – 21, 225
Karacharov, E. A. – 49
Katkov, B. G. – 903
Katkov, O. N. – 131, 467, 1005
Keystovich, A. V. – 75
Khadi, R. A. – 1057
Khakimov, N. T. – 167
Khramov, V. Yu. – 1065
Khristich, S. V. – 485
Klyuikov, B. V. – 9, 403, 421, 449, 509
Kocheganov, V. E. – 49
Kolokolov, A. S. – 309
Koloskov, V. A. – 327, 343, 531
Korenev, E. F. – 583
Korobkin, E. V. – 777
Kovalev, G. S. – 655
Kovartsev, A. N. – 713, 823

**TELECOMMUNICATIONS
AND RADIO ENGINEERING**

Volume 62, 2004

Number 1

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

- I. S. Zakharov, A. T. Mirgaleev, and S. P. Yushchenko**
The Conceptual Model of the Multi-Agent System
for Formation of the Descriptions of Local Security Threats
to RF Subjects 1
- O. I. Atakishchev, M. V. Belov, S. G. Emelianov, A. V. Nikolaev,
and B. V. Klyuikov** The Use of Structural Linguistic Methods
for Processing of Vector Geo-Information Data
in the SXF Format 9

TELEPHONY

- A. G. Kagramanzade** Prediction of Demands
in the Telecommunication Sector 21

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

- A. V. Potapov, I. B. Rodionov, and S. P. Yushchenko** Algorithm
for Coordination of Agents' Behavior in a Multi-Agent System
of Formation of the Descriptions of Local Security Threats
to RF Subjects 31
- D. V. Zagoskin** Organization of the Digital Signal-Processing
Equipment Using Universal Computation Modules
with Programmable Input/Output Architecture 41

SYSTEMS OF MOBILE RADIO COMMUNICATION

- S. A. Metelyov, V. A. Valov, D. V. Kabaev, E. A. Karacharov,
V. E. Kochegarov, and Yu. V. Shishkin** Experimental

Investigation of Efficiency of the Spatial Correlation Interference Canceller in LSMW Radio Channels	49
---	----

SATELLITE COMMUNICATION SYSTEMS

V. I. Yarmolenko Methods of Assessment of Electromagnetic Compatibility of Radio and Telecommunication Systems	65
A. V. Keystovich Joint Solution of the Problems of Navigation, Communication, and Location for the Services That Control En-Route and Off-Route Aircraft Traffic.....	75

**INFORMATION PROTECTION.
ELECTROMAGNETIC COMPATIBILITY**

Ya. E. Lvovich, V. I. Sumin, I. I. Zastrozhnov, E. A. Rogozin, and A. S. Dubrovin Formalization of Functions of the Prospective Program System for Protection of Automated System Information	81
V. L. Tamp and V. N. Nosikov Display of Structure of Nonlinear Grid Coders	93

GENERAL PROBLEMS

I. G. Urazbakhtin, L. N. Borisoglebskaya, and O. S. Panishchev Application of the Model of Planning Total Production Indicators to Optimization of Production Activities of Enterprises	99
---	----

Number 2

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

L. I. Volgin Iteration Algorithms and Structural Models Suppressing the Influence of Multiplicative Errors	103
A. T. Mirgaleev, A. V. Potapov, I. B. Rodionov, and S. P. Yushchenko The Mathematical Model of the Process for the Formation of Descriptions of Local Security Threats in the Multi-Agent System	113
A. F. Evstafiev and I. E. Kuznetsov Quasi-Optimal Detector of Pulsed RF Signals in Conditions of Narrow-Band Interference	121

TELEPHONY

O. N. Katkov and V. A. Pimenov The System for Speech Recognition on the Basis of the Neural Network	131
---	-----

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

- A. S. Yastrebov and L. M. Makarov** Principles
of Biocommunication 143

SYSTEMS OF MOBILE RADIO COMMUNICATION

- K. E. Vinogradov, M. Yu. Zakharov, A. N. Krenev,
and M. A. Kulakov** Analysis of the Distribution of Signal
and Interference Fields in the Problems
of Space-and-Frequency Planning of Radio Communication..... 157

SATELLITE COMMUNICATION SYSTEMS

- A. O. Kulyukin, S. N. Panychev, and N. T. Khakimov** Method
of Nonlinear Radio Bearing Measurement by Intermodulation
of the Emission Source 167

OPTICAL SYSTEMS

- B. G. Ibragimov** Approach to Improvement of Performance
of Optical User Terminals of the Optoelectronic
Communication Channel..... 175

INFORMATION PROTECTION. ELECTROMAGNETIC COMPATIBILITY

- A. V. Zaryaev, V. I. Sumin, I. I. Zastrozhnov, A. D. Dubrovin,
and E. A. Rogozin** Methodological Support of Control
of User Access to the Working Media of Automated
Systems..... 183

GENERAL PROBLEMS

- D. L. Tukeev, I. N. Filatov, and V. P. Tkachenko** The System
of Problems of Multi-Parameter Prediction
of Radio-Electronic Equipment Operability 193

Number 3

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

- A. V. Potapov, S. P. Yushchenko, and I. B. Rodionov**
Strategy of Application of Data Multiplexing Methods
in a Multi-Agent System of Formation of the Descriptions
of Local Security Threats 203

R. B. Tregubov Model of Access Network for Non-Stationary Operation.....	211
--	-----

TELEPHONY

A. G. Kagramanzade Prediction of the Traffic of Telecommunication Networks.....	225
---	-----

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

V. M. Dovgal, V. E. Sorokin, and A. V. Shantsev The Problem of Constructing Symbolic Bridges for Interfacing Heterogeneous Computer Networks. Part 1. Acceleration of the Work of Autonomous Productions	237
--	-----

Yu. V. Martyshevskii The Algorithm of Fractal Compression of Images.....	251
--	-----

M. Labunets, A. N. Oreshin, and N. G. Maltsev Proposals for Development of the Model of a Universal Automated System for Control of Telecommunication Objects on the Basis of the Technology of Virtual Instruments	259
---	-----

SYSTEMS OF MOBILE RADIO COMMUNICATION

A. A. Strakholis Integrated Telecommunication Systems for Determining Parameters of Mobile Objects, Control, and Communication	269
---	-----

SATELLITE COMMUNICATION SYSTEMS

R. S. Anosov, Yu. N. Lobanova, and V. N. Povetko Influence of Statistical Properties of Multidimensional Signals on the Probability of Their Optimum Detection.....	283
--	-----

A. A. Golovkov and A. M. Maltsev Synthesis and Analysis of Optimal, Filters of Transmission-Type Phase-Shift Keyers	291
---	-----

INFORMATION PROTECTION.

ELECTROMAGNETIC COMPATIBILITY

A. D. Lutsenko and M. V. Pavlovskii Technique for Evaluation of the Upgrading Potential of the Models of Electronic Countermeasures Equipment for Neutralization of Radio Communications and Radio Navigation Systems, Complexes and Equipment of the Potential Enemy.....	301
---	-----

GENERAL PROBLEMS

- V. M. Krol, A. S. Kolokolov, and E. D. Sotnikova**
Development of Video-Based Distance Training Forms 309

Number 4

THEORY OF TELECOMMUNICATIONS

- O. I. Atakishchev, L. S. Kulikov, and E. Yu. Musakin**
Algorithm of Synchronous Digital Hierarchy Signal
Recognition 313
- M. Yu. Zakharov and A. N. Krenev** Algorithm of Adaptation of Radio
Wave Propagation Model to Measurement Results for a Limited
Number of Points 319

DISTRIBUTED INFORMATIONAL AND MANAGING SYSTEMS

- M. V. Medvedeva and V. A. Koloskov** Compositional Cellular
Self-Organization Algorithms of Reproduction Environment
with Natural-Artificial Behavioral Modes 327
- A. V. Malyshev, M. V. Medvedeva, and V. A. Koloskov**
Search of a Subscriber in a Reproduced-Behavior Program
Multicontroller 343

MOBILE COMMUNICATION SYSTEMS

- A. A. Golovkov and A. A. Chaplygin** Admittance and Energy
Relations of Quasi-Nondissipative Reciprocal Adders/Power
Dividers 355

TELEPHONY

- D. V. Tikhonov** Transmission of Facsimile Messages in Digital
Communication Systems with Statistical Multiplexing..... 373
- G. V. Verkhova, N. P. Metkin, and A. S. Yastrebov**
Parametric Optimization of Multilevel Hierarchical Systems
of Mail Communication 383

GENERAL PROBLEMS

- I. G. Urazbakhtin, L. N. Borisoglebskaya, and S. Yu. Sazonov**
Investigating the Quality of Random-Number Generators
by Means of Reduced Distribution Method During Constructing
the Simulation Models of Social and Economic Objects 397

THEORY OF TELECOMMUNICATIONS

- O. I. Atakishchev and B. V. Klyujkov** Particularities in Application of Stochastic Metagrammars for Modeling the States of Digital Channels of Communication During Retrieval of Documentary Messages 403
- I. G. Urazbachtin and A. I. Urazbachtin** Properties of the Moments of Reduced Distributions 413

DISTRIBUTED INFORMATION AND MANAGING SYSTEMS

- O. I. Atakishchev, S. G. Emel'yanov, I. S. Zakharov, B. V. Klyujkov, and E. N. Petrik** Features of Multimedia Information Transfer in Telecommunication Networks and Distributed Corporate Safety Networks 421
- I. N. Glukharev, S. I. Egorov, and A. P. Tipikin** Correlation and Locator Methods of Measuring the Parameters of Synchronization Errors in Digital Data Communication Links 437
- I. S. Zakharov, O. I. Atakishchev, M. V. Belov, and B. V. Klyujkov** Features of Data Model Foundation in Geoinformation Systems 449

TELEPHONY

- P. M. Sulima** Voice User Authentication in IP-Telephony Networks 455
- O. N. Katkov and V. A. Pimenov** Properties of Neural Networks and Their Use for Voice Signals Recognition 467
- A. N. Tarakanov** Influence of Pulse Response Duration of Echo Channel upon Echo Canceller Behavior in the Duplex Operation 477
- A. V. Agranovskiy, N. Yu. Polushkin, and S. V. Khristich** New Type of Computational Devices: The Embedded Controlling Built-In Micro Web-Servers 485

THEORY OF TELECOMMUNICATIONS

O. I. Atakishchev Metagrammars and Particularities in Their Application to Formal Description of Signals and Protocols 497

E. Yu. Musakin, O. I. Atakishchev, and B. V. Klyujkov Application of Grammars with β -Controlled Precursor for Solving the Problems of Structural and Linguistic Signal Recognition in Synchronous Digital Hierarchy 509

S. V. Grebenev, I. A. Drozdov, and Yu. A. Rodin Problem of Structural Synthesis of a Public Data Network 515

Sh. M. Chabdarov, Z. G. Zakirov, A. F. Nadeev, R. R. Fajzullin, and A. E. Egorov Synthesis of a Generalized Algorithm of Fluctuating Multielement Signal Resolution Based on the Markovian-Mixed Stochastic Models 521

DISTRIBUTED INFORMATION AND MANAGING SYSTEMS

N. A. Savenkov, M. V Medvedeva, and V. A. Koloskov Algorithm of Adaptive Routing in Multicontroller with Reproducible Program of Behaviour 531

A. N. Zbinyakov, I. S. Zakharov, V. S. Titov, and K. F. Slesarchik Method of Monitoring the State of Communication Channels during Information Transmission 541

MOBILE COMMUNICATION SYSTEMS

A. I. Panychev and P. A. Solomakhin Model of Base-Station Antenna for Cellular System 547

A. A. Golovkov and D. V. Fedorchuk Synthesis and Analysis of Reactive and Resistive Manipulators of the Attenuation Function 555

A. P. Preobrazhenskiy Radar Characteristic Prediction for Objects Having Radio-Absorbing Coatings over a Wavelength Range 569

S. S. Garmatyuk and V. G. Sharvarko Experimental Research of Quarter-Wave Rod Antennas 577

GENERAL PROBLEMS

E. F. Korenev and A. M. Tsyrllov Diagnostic Electric and Thermal Burn-in of Driver Microcircuits under Controlled Self-Heating 583

THEORY OF TELECOMMUNICATIONS

V. V. Bakumov and A. I. Kryachkov
 Coordance of the Development Objectives
 of the Computer-Aided System for Controlling
 the Electronics Conflict with Opportunities
 for Its Technical Characteristic Realization in Case of Fuzzy
 Initial Information 591

A. N. Druzhinin and B. F. Zmij Synthesis of Optimum Networks
 of ARC-Quadripoles 599

**PROTECTION OF INFORMATION.
 ELECTROMAGNETIC COMPABILITY**

V. T. Eremenko Concept of Detection and Correction of Logic
 Errors in Implementation of Safety Protocol Profiles 613

Yu. I. Savvateev and M. E. Byvshe Potential Interference-Immunity
 of MPSK Signal Reception in the Case
 of Quasiharmonic Interference Background During
 Single-Channel Observation 623

**A. S. Dubrovin, Yu. A. Meshcheryakov, V. V. Obukhov,
 and E. A. Rogozin** Program Techniques for Software Protection
 of in Computer-Aided Systems 633

O. V. Nazarov and Yu. I. Savvateev Synthesis of Quasioptimal
 Receiver of a M-Positional Frequency-Shift Keying Signal
 on a Background of Frequency-Modulated
 and Gaussian Interference in the Case of a Single-Channel
 Observation 639

SYSTEMS OF SATELITE COMMUNICATIONS

A. A. Golovkov and A. A. Chaplygin Synthesis and Analysis
 of the Matching and Filtering Systems in Case of Arbitrary
 Values of Matched Admittances 649

G. S. Kovalev and V. A. Pon'kin Model of Visual Detection
 of Moving Space-Extended Objects against Nonuniform
 Backgrounds 655

A. P. Preobrazhenskiy On the Possibility to Determine Shape
 of Object in Vicinity of Recovery of Local Reflectors
 on Its Surface from Backward Scattering Diagrams 665

GENERAL PROBLEMS

- V. A. Shlykov and L. A. Bolychevtseva** Indirect Numerical Checking:
Investigation and Mathematical Model..... 673

Number 8

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

- V. V. Bednarskii, V. G. Dobvnya, and O. V. Yakovlev** Reception
Interference Immunity of Multiposition Signals
under the Conditions of General Fading 683
- V. M. Terentiev and A. A. Ilyukhin** State Modeling and Estimation
of Controllable Noisy Markov Chains 691

TELEPHONY

- V. E. Dreizin and S. P. Nikolaenko** Main Problems
and Promising Areas of Digital Encoding of Voice Signals..... 699

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

- V. V. Berezin** Hardware Stack of TCP/IP Protocols in Networks
Ethernet 10/100 Mb 707
- A. N. Kovartsev and A. L. Logvinov** Stochastic Testing
of Software Modules. Independent Testing Method..... 713

SATELLITE COMMUNICATION SYSTEMS

- A. I. Kutsakin and A. N. Osipov** Investigation of Possibilities
for Control of Throughput Capacity of Zone Service Satellite
Communication Network 727

SYSTEMS OF MOBILE RADIO COMMUNICATION

- N. S. Arkhipov and I. A. Chaplygin** Characteristics of Multifunctional
Mirror-Antenna Systems..... 737

INFORMATION PROTECTION.

ELECTROMAGNETIC COMPATIBILITY

- V. M. Dovgal, V. V. Gordienko, and V. V. Elagin**
Methods of a Computer-Based Technology for Production
of Counterfeit-Protected Electronic Documents..... 745

GENERAL PROBLEMS

- V. V. Yurtaev** Information Technologies and Education..... 753

Number 9

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

- V. G. Dovbnya and O. V. Yakovlev** Influence of Quality
of the Automatic Gain Control System Functioning on Noise
Immunity of Reception of Multiposition Signals 769
- E. V. Korobkin** The Algorithm of Filtering Noisy Images
of Automobile Engineering Samples and Converting Them
into the Vector Format..... 777

TELEPHONY

- D. V. Tikhonov** Selection of Criteria for Recognition of Signals
of Digital Statistical Multiplexing Communication Systems
and Assessment of Their Informativeness 785

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

- D. A. Lednov, M. Yu. Zulkarneev, and L. S. Kulikov** Review
of Patents in the Area of Keyword Recognition
Part 1. Flow-Charts without Use of Verification of Recognition
Results 791
- D. A. Lednov, M. Yu. Zulkarneev, and L. S. Kulikov**
Review of Patents in the Area of Keyword Recognition
Part 2. Schemes Using Verification of Recognition Results..... 805
- A. N. Kovartsev and A. L. Logvinov** Enhancing the Efficiency
of the Algorithm for Testing the Program Modules 823

SYSTEMS OF MOBILE RADIO COMMUNICATION

- A. R. Diyazitdinova** Use of the Advising-System Technology
in Managing the Regional Cellular Communication Company.... 831

SATELLITE COMMUNICATION SYSTEMS

- A. P. Preobrazhenskii** Predicting Radar Characteristics of Objects
in the Wavelength Band Using Results of Measurement
of Scattering Characteristics on Discrete Frequencies 843

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

- P. B. Abramov** Reliability of Complex Radio-Electronic Systems:
Modeling and Management 851

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

- R. E. Arutyunyan, L. S. Kulikov, and B. A. Telesnin**
The Modular Principle for Development of Textual
Document Processing Systems..... 861
- V. S. Titov, V. S. Polishchuk, E. V. Shchetinin,
and V. S. Panishchev** The Use of Neural Networks
as Technology for Information Processing
in Telecommunication Systems 873

SYSTEMS OF MOBILE RADIO COMMUNICATION

- A. P. Dyatlov, P. A. Dyatlov, and K. A. Mamontov**
Evaluation of Medium Frequency of Broad-Band
Frequency-Modulated Signals 879

SATELLITE COMMUNICATION SYSTEMS

- V. N. Vintaev, A. I. Urazbakhtin, and N. N. Ushakova**
Modeling of the Onboard Subsystem for Recognition in the Class
of Probabilistic Features..... 889

**INFORMATION PROTECTION.
ELECTROMAGNETIC COMPATIBILITY**

- V. B. Avdeev, V. V. Belyaev, and T. S. Uzhakhov**
The Modernized Firmware System for Measurement of Radio
Emissions: Principles of Construction, Operation and Testing
Results 895
- A. S. Bagaev, I. E. Vasilieva, V. G. Gerasimenko,
and B. G. Katkov** Damping of Window Glass Vibrations
Caused by Speech Signals Circulating in the Room 903

GENERAL PROBLEMS

- I. S. Zakharov, S. F. Yatsun, and S. S. Sysoeva** Investigation
of Parametric Sensitivity of the Automobile Speed Sensor
in Conditions of Its Mounting Errors..... 911

K. V. Filatov On the Steepness of Output Voltage in High-Quality Amplifiers of Sound Signals	931
---	-----

Number 11

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

I. S. Zakharov, O. I. Atakishchev, and A. G. Saibel Basic Indicators of the Efficiency of a Measuring System with Variable Elements	937
I. T. Rozhkov and R. V. Dudorov Effect of a Nonlinear Tangential Converter on Estimation of the Signal/Noise Ratio of a Binary Video Sequence	947

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

T. A. Piyavchenko On Choosing Modules for the Control Unit of Local Control Systems	953
V. L. Burkovskii, N. V. Krivosheeva, and D. V. Mezhov Intellectualization of the Operative Decision-Making Problem in Diagnostic and Control Systems of Discrete Technological Processes	961

SYSTEMS OF MOBILE RADIO COMMUNICATION

V. B. Avdeev, D. V. Avdeeva, A. V. Berdyshev, G. V. Makarov, S. N. Panychev, and A. P. Yarygin Functional Failures and Noise Arising under the Effect of Powerful Ultrashort Pulses on Mobile Phones and Radio Transmitters	971
---	-----

SATELLITE COMMUNICATION SYSTEMS

A. A. Golovkov and A. V. Verbitskii Synthesis and Analysis of Interfacing-Filtering Devices on Distributed Elements with the Use of Their Resistance Matrix	977
--	-----

OPTICAL SYSTEMS

A. S. Sizov and D. A. Strebkov Rational Deployment of the Elements of a Video Surveillance System under the Conditions of Probabilistic Motion Pattern of the Object of Search	985
---	-----

**INFORMATION PROTECTION.
ELECTROMAGNETIC COMPATIBILITY**

- V. M. Dovgal, V. V. Gordienko, and I. S. Zakharov**
Preventive Counteraction to Information Attack on a Text
Electronic Document by the Method of Chaotic Transposition
of Symbol Code Fragments 995
- O. N. Katkov, V. A. Pimenov, and A. P. Ryzhkov**
The Use of Adaptive Neural Network in a Voice
Identification System. 1005

GENERAL PROBLEMS

- V. D. Sakhatskii** Radio Absorbing Sensor in Shaft Speed Meters 1011

Number 12

THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

- V. M. Dovgal, V. E. Sorokin, and A. V. Shantsev** The Problem
of Constructing Symbolic Bridges for Interfacing
Heterogeneous Computer Networks.
Part 2. Acceleration of Algorithmic Diagrams, and Hardware
Architecture 1021
- I. G. Urazbakhtin and N. I. Rykov** Application of Data Filtering
and Neural Networks in Signal Processing 1037

DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

- A. S. Sviridov** Procedure of Pre-Implementation Survey
for the Purpose of Design of the Enterprise
Information Network. 1047
- A. V. Agranovskii, R. E. Agafonov, and R. A. Khadi**
Methods of Software Reverse Engineering 1057
- V. A. Marlov, V. P. Morozov, and V. Yu. Khramov**
Analysis of Linguistic Approaches to Formalization
of the Language for Development of Data
Acquisition Processors 1065

OPTICAL SYSTEMS

- V. N. Vintaev, A. I. Urazbakhtin, and N. N. Ushakova**
Possibility of Analytical Estimation of Informativeness of an Image
Depending on Its Resolution 1073

**INFORMATION PROTECTION.
ELECTROMAGNETIC COMPATIBILITY**

V. A. Dudko and E. N. Kuzbozhev Dynamic Simulation of the Enterprise Financial Management	1079
V. S. Titov, V. A. Damm, V. S. Polishchuk, A. L. Ershov, and A. G. Spevakov The Firmware System for Automated Monitoring of Electromagnetic Emissions at the Confidential Information Processing Facility	1087

GENERAL PROBLEMS

I. S. Zakharov, S. F. Yatsun, and S. S. Sysoev Influence of the Rotor Rotational Frequency on Functional Properties of a Vehicle Velocity Transducer.....	1093
Author Index.....	1105
Table of Contents	1109
