

TABLE OF CONTENTS

**TELECOMMUNICATIONS  
AND RADIO ENGINEERING**

---

**Volume 64, 2005**

---

**Number 1**

**THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS**

---

- V. M. Dovgal and I. S. Zakharov** The Concept and Technique  
of Analysis and Processing of Random-Similar (Chaotic)  
Processes in Computer Networks. Part 1. . . . . 1
- O. I. Atakishchev, A. V. Nikolaev, and E. A. Petrik**  
Peculiarities of Structural Linguistic Description  
of the Transport Stream Packet ISO/IEC 13818-1 Systems . . . . . 13

**TELEPHONY**

---

- G. V. Verkhova, N. P. Metkin, and A. A. Yastrebov**  
Formalized Description of the Problems of Structural and  
Parametric Optimization and Control of Postal Service Systems . . . 21

**DISTRIBUTED INFORMATION AND CONTROL SYSTEMS**

---

- V. S. Panishchev, A. P. Tipikin, and V. S. Yakovleva**  
The Use of Neural Network for Real-Time Extracting Contour  
Lines of Objects in the Image in a Recognition System . . . . . 29

**SATELLITE COMMUNICATION SYSTEMS**

---

- A. A. Golovkov and V. G. Minakov** Relations between the Elements  
of a Resistance Matrix and Their Use for Synthesis of Matching  
and Filtering Units of Amplitude-Phase Shift Keyers . . . . . 39

**OPTICAL SYSTEMS**

---

- S. V. Degtyarev, D. V. Zhukovskii, and A. F. Rubanov**  
Mathematical Simulation of an Optoelectronic Device

for Control of the Motion of a Transportation Robot by the Method of List Models .....	49
<b>A. G. Spevakov, S. V. Degtyarev, and A. P. Tipikin</b> Stereoscopic Vision-Based Determination of the Coordinates of Moving Objects .....	55
<b>M. I. Trufanov, S. Yu. Miroshnichenko, and V. S. Titov</b> A Fuzzy Mathematical Model for Adaptive Preprocessing of Images in Calibration of a Binocular Technical Vision System .....	61

---

**INFORMATION PROTECTION.  
ELECTROMAGNETIC COMPATIBILITY**

---

<b>V. A. Lobov</b> A Formalized Procedure for Selecting the Method of Protection of Information on the State of a Complex Facility .....	69
--	----

---

**GENERAL PROBLEMS**

---

<b>A. P. Dyatlov, P. A. Dyatlov, and K. A. Mamontov</b> Radio Monitoring of Weak Broadband Frequency-Modulated Signals .....	79
--	----

**Number 2**

---

**THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS**

---

<b>F. A. Starkov and S. N. Gromenko</b> Use of Fuzzy Sets and the Possibility Category in the Problems of Character Recognition .....	89
<b>R. M. Alguliev and R. M. Alyguliev</b> A Genetic Approach to Quasi-Optimal Assignment of Tasks in the Distributed System .....	97

---

**TELEPHONY**

---

<b>O. I. Atakishchev, A. V. Gritsenko, I. S. Zakharov, and S. G. Emelianov</b> Principles of Construction of a Structured Cable System for Communication Networks .....	109
--	-----

---

**DISTRIBUTED INFORMATION AND CONTROL SYSTEMS**

---

<b>S. V. Snigirev</b> Analysis and Classification of Access Procedures Used in ATM Networks .....	119
--	-----

<b>Yu. V. Sanin and S. V. Snigirev</b> Analysis of Methods for Ensuring Delay Guarantees in ATM Networks .....	125
---	-----

---

### SATELLITE COMMUNICATION SYSTEMS

---

<b>A. V. Ashikhmin, Yu. G. Pasternak, and A. V. Ostankov</b> Electrodynamic Modeling of the Antenna Sloper Grid Designed for Random Polarization Wave Direction Finding .....	131
--	-----

---

### OPTICAL SYSTEMS

---

<b>D. A. Strebkov and A. S. Sizov</b> Analytical Models for Search of an Object Moving in the Road Network .....	139
---	-----

---

### INFORMATION PROTECTION. ELECTROMAGNETIC COMPATIBILITY

---

<b>A. V. Zhizhelev, S. V. Soloviev, S. V. Zhilinskii, and S. A. Golovin</b> The Model for Integration of Information Support Processes in the System of Monitoring the State of Technical Information Protection Using New Information Technologies .....	149
--	-----

---

### GENERAL PROBLEMS

---

<b>L. I. Volgin</b> Iteration Algorithms and Structural Models for Increase of the Accuracy of Electrical Signal Transducers .....	155
--	-----

### Number 3

---

### THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

---

<b>O. I. Atakishchev, M. V. Belov, I. S. Zakharov, and A. V. Nikolaev</b> Specific Features of Parallel Asynchronous Data Processing in Distributed GIS.....	167
---	-----

---

### TELEPHONY

---

<b>S. V. Grigoriev and S. A. Kolychev</b> Prediction of the Maximum Achievable Levels of Reducing Intelligibility of Speech Masked by Band- and Power-Limited Noise Interference .....	177
---	-----

---

## DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

---

- O. I. Atakishchev, E. Yu. Musakin, A. V. Nikolaev, and A. A. Chizhov** Special Features of the Design of Demultiplexing Devices for High-Speed Flows in Distiributed Corporate Computer Systems Based on PDH and SDH Digital Communication Lines..... 185
- S. G. Emelianov, O. I. Atakishchev, I. S. Zakharov, E. A. Titenko, E. Yu. Musakin, and A. A. Chizhov** Basic Characteristics of High-Rate Multiplexing Systems with Time Compression of Channels According to ITU-T Recommendations. Part 1. Basic Characteristics of Multiplexing Systems of the First Level of Plesiochronous Digital Hierarchy..... 195

---

## SATELLITE COMMUNICATION SYSTEMS

---

- A. A. Golovkov, and A. G. Devyatkov** Synthesis of Matching and Filtering Units for Antennas with Predetermined Phases of Transmission Gain..... 203
- S. V. Bukharin, A. N. Glushkov, N. A. Kostrov, and V. P. Litvinenko** Fast Digital Algorithms for Detecting Narrow-Band Signals ..... 211

---

## OPTICAL SYSTEMS

---

- V. N. Vintaev, M. G. Gadzhiev, and A. I. Urazbakhtin** Generalized Efficiency Criterion in Problems of Optimal Planning of Remote Sensing of the Earth in the Systems of Natural Resources Research ..... 219

---

## INFORMATION PROTECTION. ELECTROMAGNETIC COMPATIBILITY

---

- A. V. Zhizhelev, S. V. Zhilinskii, A. V. Klyshevskii, and S. A. Golovin** Set-Theoretical Description of the System for Control of the State of Technical Information Protection ..... 227
- V. N. Mukhortov and A. S. Timofeev** Optimization of Frequency Spacing in Potentially Incompatible Radio-Electronic Facilities at a Predetermined Control System Operation Quality ..... 239

## GENERAL PROBLEMS

---

- E. V. Grechishnikov, A. M. Labunets, V. A. Lyubimov,  
and A. S. Belov** Method of Diagnosing Radio Communication  
Facilities Operating in Adaptive Frequency Mode . . . . . 249

### Number 4

## THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

---

- A. T. Mirgaleev** Method of Teaching Multiagent  
Information Systems Using Fuzzy  
Cognitive Cards . . . . . 255
- A. I. Zakharenkov, I. B. Rodionov, and S. P. Yushchenko**  
Algorithm of Integration of Incomplete and Inaccurate Data  
in Multiagent Information Systems . . . . . 265

## DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

---

- S. G. Emelianov, O. I. Atakishchev, I. S. Zakharov, E. A. Titenko,  
E. Yu. Musakin, and A. A. Chizhov**  
Basic Characteristics of High-Rate Multiplexing Systems  
with Time Compression of Channels According  
to ITU-T Recommendations.  
Part 2. Basic Characteristics of Multiplexing Systems  
from the Second to the Fourth Levels of Plesiochronous  
Digital Hierarchy . . . . . 277
- A. V. Konichenko and T. A. Mirtalibov** Classification  
of Information Systems in Telecommunication Services . . . . . 291

## SYSTEMS OF MOBILE RADIO COMMUNICATION

---

- R. G. Shcherbina and O. V. Yakovlev** Method for Recognition  
of the Type of Digital Signal Modulation Invariant  
to the Carrier Estimations . . . . . 299

## SATELLITE COMMUNICATION SYSTEMS

---

- A. A. Golovkov and D. V. Fedorchuk**  
Synthesis of Matching-Filtering Devices  
for the Reflected-Signal Amplitude Keying Manipulator  
on the Basis of a Transfer Matrix . . . . . 307

---

## OPTICAL SYSTEMS

---

- V. N. Vintaev, A. I. Urazbakhtin, and N. N. Ushakova**  
The Criterion of Admissibility of the Required Resolution  
Degradation of Images Synthesized by Some Radio Systems . . . . 315

### INFORMATION PROTECTION. ELECTROMAGNETIC COMPATIBILITY

---

- V. S. Avramenko, V. A. Baranov, and M. V. Bochkov**  
Method for Monitoring the Safety of File Content . . . . . 321
- A. V. Agranovskii and R. A. Khadi** Methods for Studying  
the Software Implementing Cryptographic Algorithms. . . . . 333

## Number 5

---

### THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

---

- D. P. Bessonov, T. A. Mirtalibov, and A. S. Sizov** Formation  
of the Attribute Space for Wavelet-Transformation-Based  
Recognition of Complex Radio Signals . . . . . 341
- A. I. Zakharenkov, A. T. Mirgaleev, and S. P. Yushchenko**  
Generalized Algorithm for Training of Multiagent  
Information Systems . . . . . 355

---

### DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

---

- A. A. Bukatov, S. A. Bukatov, M. I. Monastyrskii,  
and O. V. Sharoiko** Analysis of Efficient Methods  
to Build Transport Infrastructure  
of Territorial- and Regional-Scale Corporate  
Telecommunication Networks . . . . . 367

---

### SYSTEMS OF MOBILE RADIO COMMUNICATION

---

- S. N. Saveliev and V. A. Pimenov** Use of GPRS Protocol  
of the GSM 900/1800 Mobile Telecommunication System  
in Telemonitoring Systems of Remote Objects. . . . . 377

---

### SATELLITE COMMUNICATION SYSTEMS

---

- A. A. Golovkov and A. V. Verbitskii** Synthesis of Broadband  
Matching Devices on the Elements  
with Distributed Parameters. . . . . 383

---

## OPTICAL SYSTEMS

---

- V. N. Vintaev, M. G. Gadzhiev, A. I. Urazbakhtin,**  
**and N. N. Ushakova** Modeling of Verification Operation Modes of  
Radio-Technical Systems ..... 393

### INFORMATION PROTECTION.

### ELECTROMAGNETIC COMPATIBILITY

---

- V. N. Lopin and I. S. Zakharov** Binary Data Flow Coding  
by the Method of Periodic Transposition Based on Neuron  
Network Logic Modules..... 407

### GENERAL PROBLEMS

---

- S. N. Saveliev and V. A. Pimenov** The Use of ADXL  
Accelerometers in Vibration Technical Security Systems ..... 419

## Number 6

### THEORETICAL PRINCIPLES OF TELECOMMUNICATIONS

---

- G. P. Koloskova and M. V. Shutov** The Genetic Algorithm  
of Reserve Accommodation in a Failure-Proof  
Multicontroller ..... 425
- I. B. Rodionov** Integration of Monitoring Data in Multiagent  
Information Systems ..... 437

### DISTRIBUTED INFORMATION AND CONTROL SYSTEMS

---

- R. M. Mikita, Yu. I. Rogozov, A. S. Sviridov, and L. N. Stukotii**  
The Concept of Building the Information Model  
of an Enterprise..... 447
- V. Yu. Khramov and P. N. Besedin** Use of Fuzzy Situations  
in Assessment of Software Quality ..... 455

### OPTICAL SYSTEMS

---

- A. U. Tsvetkov** A Holographic Method for Construction  
of High-Speed Optoelectronic  
Analog-to-Digital Converters ..... 465

**INFORMATION PROTECTION.  
ELECTROMAGNETIC COMPATIBILITY**

---

<b>A. A. Trifonov, A. N. Manukovskii, and I. V. Krutskikh</b> Designing of Multi-Aspect Databases with Account of the Requirements to Adequacy of Stored Information .....	473
<b>V. P. Morozov, A. V. Nevolin, O. G. Nikitin, and V. A. Sklyarov</b> Model for Evaluating Influence of Information Effects on Information Quality in Automatics Control Systems .....	481
<b>V. N. Lopin and I. S. Zakharov</b> Application of Hierarchical Neural Networks for Encryption of Binary Information .....	489

**GENERAL PROBLEMS**

<b>M. V. Artemenko, O. Gudets, T. I. Lapina, and M. V. Sokolova</b> The Information Analytical Subsystem for Support of Management Decision Making in the Social Sphere of the Region.....	499
