

# INTERFACIAL PHENOMENA AND HEAT TRANSFER

## CONTENTS, VOLUME 4, 2016

Page Range of Issues – Issue 1: 1–91; Issues 2–3: 93–216; Issue 4: 217–304

### Issue 1

<b>Void Fraction Characteristics of One-Component Gas–Liquid Two-Phase Flow in Small Diameter Tubes</b> <i>T. Gomyo &amp; H. Asano</i>	1
<b>Experimental Study on Boiling Flow and Heat Transfer in Pebble Bed Channels</b> <i>Y. Zhang, X. Zhang, &amp; B. Bai</i>	19
<b>Overview of Heat Pipe Studies during the Period 2010–2015</b> <i>S. Lips, V. Sartre, F. Lefèvre, S. Khandekar, &amp; J. Bonjour</i>	33
<b>Convective Boiling with Electrohydrodynamic Enhancement: The Influence of Inlet Quality</b> <i>G.J. McGranaghan &amp; A.J. Robinson</i>	55
<b>Stability of the Gas Core of a Cyclonic Two-Phase Separator in Microgravity</b> <i>A. Kharraz, M.-F. Kang, &amp; Y. Kamotani</i>	71
<b>On the Effect of the Contact Angle Hysteresis for Small Droplets on a Wettability Gradient Surface</b> <i>F.M. Mancio Reis, P. Lavieille, S. Blanco, &amp; M. Miscevic</i>	81

### Issues 2-3

<b>Microregion Model of a Contact Line Including Evaporation, Kinetics and Slip Length</b> <i>V. Janeček &amp; M. Anderson</i>	93
<b>Thin Liquid Films Flowing down Heated Walls: A Review of Recent Results</b> <i>L.A. Dávalos-Orozco</i>	109
<b>Influence of Internal Energy Variations of the Interface on the Stability of Film Flow</b> <i>V.B. Bekezhanova &amp; O.A. Kabov</i>	133
<b>Prognosis and Numerical Analysis of the Pressure Drop in Slush Hydrogen Vacuum-Jacketed Transfer Lines</b> <i>T. Hatem, N. Zakhia, B. Zeghondy, &amp; J. Jelwan</i>	157
<b>Randomicity Characteristics of Flash Evaporation of Pure Water Droplets in Quick Depressurization Process</b> <i>J.-F. Zhao, W.-F. Du, &amp; K. Li</i>	181
<b>Features of Two-Phase Flow Regimes in a Horizontal Rectangular Microchannel with the Height of 50 m1</b> <i>F.V. Ronshin, V.V. Cheverda, E.A. Chinnov, &amp; O.A. Kabov</i>	91
<b>Investigation of Moist Air Flow near Contact Line using Microdroplets as Tracers</b> <i>O.A. Kabov, D.V. Zaitsev, D.P. Kirichenko, &amp; V.S. Ajaev</i>	207

### Issue 4

#### SPECIAL ISSUE: DROPS, BUBBLES, AND THIN LIQUID FILMS (HONOR KABOV)

GUEST EDITORS: V. AJAEV, P. DI MARCO, H. GUO, H. OHTA, L.A. DAVALOS-OROZCO

<b>Preface: Drops, Bubbles, and Thin Films, Special Issue Honoring Professor Oleg Kabov</b> <i>V. Ajaev, P. Di Marco, H. Guo, H. Ohta, L.A. Davalos-Orozco</i>	v-xiv
<b>A Numerical Study of Particle Transport in an Evaporating Colloidal Sessile Droplet</b> <i>M. Ait Saada, S. Chikh, &amp; L. Tadrist</i>	217

<b>Application of Planar Laser-Induced Fluorescence for the Investigation of Interfacial Waves and Rivulet Structures in Liquid Films Flowing down Inverted Substrates</b>	<b>235</b>
<i>A. Charogiannis &amp; C.N. Markides</i>	
<b>Simultaneous Film Thickness and 3D-2C Velocity Measurements using LIF and Light-Field PTV Methods in a 3D Wave on a Falling Liquid Film</b>	<b>253</b>
<i>A.Z. Kyon, A.V. Bobylev, V.V. Guzanov, D.M. Markovich, &amp; S.M. Kharlamov</i>	
<b>High-Speed Infrared Thermographic Investigation of Water Subcooled Pool Boiling on Thin Metal Foils</b>	<b>259</b>
<i>M. Zupančič, J. Voglar, F. Cimerman, &amp; I. Golobič</i>	
<b>Bridge Flow of Liquid along a Gap between Inclined Cylinders</b>	<b>269</b>
<i>L.I. Maltsev, P.A. Houghton, &amp; D.V. Kulikov</i>	
<b>Thin Liquid Film Dynamics and Bubble Behavior in Flow Boiling</b>	<b>279</b>
<i>K. Wang, R. Lin, N. Wu, W. Ma, &amp; B. Bai</i>	
<b>Film Flow with Local Heating: Analysis of 2D Structure Instability</b>	<b>293</b>
<i>O.V. Sharypov</i>	
<b>Index, Volume 4, 2016</b>	<b>305</b>
