GUEST EDITOR
STUART SAMUELS, MD, PhD

Stuart Samuels, MD, PhD, is an Associate Professor of Clinical Medicine in the Department of Radiation Oncology at the University of Miami who specializes in the treatment of head and neck cancer. He is currently the Associate Director of Clinical Operations for the Department of Radiation Oncology, the Director of H&N Radiation Services, and the Co-Director of the Head and Neck Site disease group at the Sylvester Comprehensive Cancer Center. He graduated from the graduate program at the University of Miami Miller School of Medicine and completed his residency in radiation oncology at the University of Michigan. His research focuses on the late toxicities of radiation. He wrote and directed a clinical trial studying radiation fibrosis of the neck. He lives in Hollywood, Florida, with his wife Ilanit and their three children, Saphira (20), Leila (17), and Rami (14).

Dr. Samuels is honored to be the guest editor of this special issue dedicated to the memory of his sisters, Rana Samuels Ofran, PhD, and Beth Samuels, PhD.
