

Index

A

advancing contact line 42
advection algorithm 81
Allaire, G. 131
Atwood number 24

B

Bajsić, I. 291
Benjamin bubble 193, 207
Bond number 3, 237
boundary element method for Stokes
flow 8, 154
bubble bursting at a free surface 135
bubble collapse 157
bubble growth 157
bubbles (long) 193, 207
bursting of a gas bubble 135

C

Caltagirone, J.-P. 73, 81, 85, 91,
109, 113, 125
Canot, E. 17, 23, 135, 143
capillary channel 277
capillary length 238
capillary number 8, 32, 252
capillary standing waves 17
capillary waves 18
Cartellier, A. 143
cavitation 100, 223
cavitation number 226
Chantepedrix, G. 269
choking 278
collision of two drops 149
contact angle 41, 236
contact line 42, 235
convergent-divergent channel 179,
223
Coutier-Delgosha, O. 223
Coutris, N. 149
critical flow rate 277

D

dam-break 125
Dreyer, M., E. 235, 277
drop collisions 149
drop oscillations 73
drop trajectories 149
droplet impact 119, 173
droplet pinning 41
Duquennoy, C. 1, 41, 45

E

Eötvös number 24
encapsulation 12
Estivalezes, J.-L. 173, 269

F

Fabre, J. 193, 207
Feuillebois, F. 41, 119, 149
Fortes-Patella, R. 223
Fourier number 55
free surface deformation 143
Friess, H. 179
Froude number 127

G

Georgescu, S.-C. 135
gravity step reduction 235
gravity wave 18

H

Ha-Ngoc, H. 193, 207
Helluy, P. 97
Hervieu, E. 7, 143

I

impact of a drop on a thin film 119
impact of a drop onto a hot wall 173
inclusion rising in another fluid 2, 7
injection 91

J

Jamet, D. 31, 41, 45, 65, 113

jet 92

jump conditions 2

Juric, D. 85

K

Kelvin-Helmholtz instability 291

Kokh, S. 97, 131

L

Lakehal, D. 179, 187

Lebaigue, O. 1, 41, 91, 109, 157, 173

Lemonnier, H. 7, 31, 157, 187, 255

lock flows 187

Lubin, P. 17, 255

M

meniscus 235, 277

Michaelis, M. 235

Morton number 3, 238

mould 91

moving contact line 278

multi-vortex velocity field 86

N

negative pressure 100

O

Ohlhoff, A. 277

Ohnesorge number 120, 174, 238

Oscillation of an inclusion 31

P

Péclet number 50

parasitic currents 73

phase change 45, 65

phase inversion 113

Pigeonneau, F. 119, 149

Poiseuille two-phase flow 109

R

Rayleigh-Taylor instability 23

Reboud, J.-L. 223

receding contact line 42

Reynolds number 9, 127, 174

Riemann problem 97

Rosendhal, U. 277

Rouy, S. 97

S

scalar advection problem 86

shearing 113

shock tubes 97

shock-bubble interaction 131

sloshing 269

solenoidal velocity field 181

solitary waves 255

solitons 255

spherical cap bubble 1

Stokes equations 8

stratified flow 110

stretching 113

stretching of a circle 85

Štrubelj, L. 291

Stutz, B. 223

T

Taylor bubble 193, 207

Tiselj, I. 291

V

vacuum apparition 100

vaporization 46

Vincent, S. 1, 23, 73, 81, 85, 91, 109, 113, 125, 135, 179

viscous damping 73

viscous jet 91

vortex 81, 86

W

waves 17

Weber number 120, 174

wetting 235
